**For Any Business Spending \$2 up to \$50 Per Click Or More On Google Ad Words.**

**Announcing: A New, Unique, Powerful Way To Get Top Of Page ONE Listings In Google, Yahoo, MSN or Any Search Engine Without Paying High Prices For Every Click. In Fact, These Are TOP OF PAGE ONE "Organic" Listings That Give You 9 Times More CLICKS At ZERO COST.**

**And it all happens FAST! Generally speaking, we can get you on the top of page one... in less than 24 hours. Sometimes we've gotten clients top page listings in just 16 minutes after we did our behind the scenes Search Engine work.**

**DEAR FRUSTRATED  
GOOGLE ADVERTISER,**

If you're frustrated with paying \$2... \$25... \$30... \$50 or more per click... Just to get prospective clients calling you from google... yahoo... MSN or the hundreds of other search engines... your going to love this special report.

My name is Linwood Austin. I have been a "results" oriented marketer for some 25 years. I specialize in direct marketing techniques using TESTED and PROVEN methods for getting new prospects and clients at ROI's that make sense.

**GET PAGE ONE FAST**

I can get you at the TOP OF THE PAGE ONE on the "organic" side of the page—FAST. And this is exciting! Why? Because the organic listings get 9 times more clicks than the "paid listing" side of google, yahoo, etc.

Everyone knows that the organic side of the page is the place to be. The problem has been... how to get on the organic side when there are hundreds if not thousands of competing firms vying for the same limited slots available.

**GETTING REAMED WITH HIGH PRICED ADWORDS?**

Some businesses are paying as much as \$70 dollars per click just to hopefully talk to someone on the phone.

And of course, paying those kind of rates may pay off, if the client turns into a big account.

But too often you have to pay those prices even though most "clicks" don't turn into business.

NOW — You'll be thrilled know that I can beat those numbers. I can get you on the top of page one of google for many different search terms and you don't have to pay for a single click.

I have a unique and powerful way to get you there—Lickity Split.

I have to do a fair bit of behind the scenes work... analyzing keywords... competitors... rankings... traffic flows and more.

**IT WORKS LIKE MAGIC**

Then I have to "manipulate" some things about your website or your message to make the magic happen... but once I do my work... it's like magic. Your firm shows up at the top of page one on google, etc. and the phone starts ringing with prospects and clients wanting to do business with you.

If you're paying high prices for each and every click... you should pick up the phone RIGHT NOW and lets talk.

I'm sending this message to you and possibly to a few of your competitors at the same

time.

**ONE CLIENT PER CATAGORY**

Listen... I can only take a limited number of clients for this unique and powerful service. In fact we can only do ONE CLIENT in each sub-category and geographic location. (A sub-category in this case might be something like "personal injury law" as oppose to just "lawyer".)

Why only one? First of all I only have so much time and this is a somewhat labor intensive work on my behalf.

But more importantly... there is only so much room at the top of the page!!!

If you want to be there... we need to talk. Marketing on the internet is not a hit or miss game. There is a lot of inside information... tips... techniques... and stings you have to pull to get everything to work just right.

Let me repeat this idea: It's important. With those "paid ad words" everyone knows it's an ad. It's a "sales" effort. They are somewhat reluctant to click on that side of the page.

**GET 9 TIMES MORE CLICKS AT ZERO CLICK COSTS**

But with the organic side of the page, prospects feel less threatened. They "know" there is information to be had without the sales hype. That's why the organic side gets 9

times more clicks than the paid listing side.

Again, I can only take ONE FIRM on as a client for this specialized marketing service. You should take advantage of this NOW.

Don't suffer disappointment. You know in your heart that marketing is the lifeblood of your business. If the phone doesn't ring with the right kind of prospects and clients... cash flow drops. And in this economy you must be serious about bringing in good prospects and good clients.

Hope doesn't make the phone ring. Skillful marketing does.

Let's talk.

Sincerely Yours,

Linwood Austin—
